## **Employment Experience**

**Candina Group**, Done Bikendi Kalea, 8, Bilbao, Bizkaia, Spain, June 2017 - August 2017

A cargo shipping group located in Spain that ships worldwide and has a range of offices around the world. This was part of a summer internship obtained through Newry Southern Regional College.

- Improved the layout of the company's website.
- Assisted in helping the office employees with technical issues regarding their computers.
- Coordinated with other employees to tackle problems..

**Dream World Bedding Ltd**, Unit 3, Milltown Industrial Estate, Warrenpoint, May 2018 - August 2018

A bed manufacturing and shipping company, shipping beds worldwide.

- Worked in a large team producing and preparing beds for shipping
- Took orders and deliveries and performed stock intake as well as the allocation and storage of new stock.
- Communicated with customers to take orders and deal with returns/complaints.

---

## **Education**

**St. Mark's High school, Warrenpoint**, September 2008 - July 2013

Obtained 9 GCSEs graded A-C, July 2013.

**Newry Southern Regional College**, September 2013 - June 2017

Obtained a DDM, Cambridge Technical Diploma in Information Communication Technology.

**University of Hull, England**, September 2017 - June 2020

Bachelor of Science in Computer Science, July 2020.

Computer Science, September 2017 - June 2020

- Enrolled and excelled in classes, incorporating software focus with hardware and logic design.

Coursework included:

- Database techniques and design, Algorithms and Complexity, AI and Computer Vision and Microcontrollers.
  - Often working as part of large teams, requiring us to work together to produce an end product and communicate clearly as a team.
  - Devised a study/work plan in order to manage my time efficiently to ensure all coursework was complete in a timely manner.
-

---

## **Interests**

### **Languages**

Currently learning to speak Japanese, taking time out of my day to devise a study plan and practice reading and speaking Japanese.

### **Programming**

Actively learning different programming languages and advanced algorithms in order to continue creating software that demonstrates my knowledge in the field of Computer Science.

---

## **Computer Skills**

**Languages Used:** C++, C#, HTML/CSS/JS, Python, SQL.

**Operating Systems:** Windows XP, Vista, 7, 8 and 10, Linux, Ubuntu.

**Software Used:** Microsoft Word, Excel, PowerPoint, Google Docs, MATLAB, MySQL.
